

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: *Ánimo Jackie Robinson Charter High School*

CDS Code: 19-64733-0111583

School Year: 2024-25

LEA contact information:

Annette Gonzalez

Chief Education Officer

angonzalez@greendot.org

323-565-1600

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2024-25 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue *Ánimo Jackie Robinson Charter High School* expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for *Ánimo Jackie Robinson Charter High School* is \$12,202,860, of which \$9,504,742 is Local Control Funding Formula (LCFF), \$1,628,231 is other state funds, \$50,000 is local funds, and \$1,019,887 is federal funds. Of the \$9,504,742 in LCFF Funds, \$2,676,010 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much [Ánimo Jackie Robinson Charter High School](#) plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: [Ánimo Jackie Robinson Charter High School](#) plans to spend \$12,202,860 for the 2024-25 school year. Of that amount, \$8,830,204 is tied to actions/services in the LCAP and \$3,372,656 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

All other funds that are not identified in the Local Control and Accountability Plan are allocated to personnel salaries and benefits and operational expenses such as rent, maintenance costs, debt service, material and supplies, furniture and fixtures, technology, legal services, janitorial services, security services, authorizer fees and other miscellaneous professional services.

Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, [Ánimo Jackie Robinson Charter High School](#) is projecting it will receive \$2,676,010 based on the enrollment of foster youth, English learner, and low-income students. [Ánimo Jackie Robinson Charter High School](#) must describe how it intends to increase or improve services for high needs students in the LCAP. [Ánimo Jackie Robinson Charter High School](#) plans to spend \$3,934,777 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what [Ánimo Jackie Robinson Charter High School](#) budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what [Ánimo Jackie Robinson Charter High School](#) estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, [Ánimo Jackie Robinson Charter High School](#)'s LCAP budgeted \$4,122,498 for planned actions to increase or improve services for high needs students. [Ánimo Jackie Robinson Charter High School](#) actually spent \$8,463,424 for actions to increase or improve services for high needs students in 2023-24.

2023–24 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023–24 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

Goals and Actions

Goal

| Goal # | Description |
|--------|---|
| 1 | Provide Basic Services by: <ul style="list-style-type: none"> Maintaining the appropriate assignment of teachers, appropriately credentialed in the subject areas and for the pupils they are teaching Providing students will have access to and be enrolled in a broad course of study (i.e., science, social science, VAPA, PE for high school students), and have access to standards-aligned instructional materials and the educational program as outlined in the school’s charter petition Maintaining school facilities are maintained in good repair |

Measuring and Reporting Results

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Year 3 Outcome | Desired Outcome for 2023–24 |
|---|----------|----------------|----------------|----------------|-----------------------------|
| Goal 1A: 100% of teachers will be appropriately credentialed in the subject areas and for the pupils they teach. | 100 | 100 | 100.0% | 100% | 100 |
| Goal 1B: Students will have access and be enrolled in a broad course of study (i.e., science, social science, VAPA, PE for high school students), standards-aligned materials, and additional instructional | 100 | 100 | 100.0% | 100% | 100 |

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Year 3 Outcome | Desired Outcome for 2023–24 |
|--|----------|--|----------------|----------------|-----------------------------|
| materials and to the educational program as outlined in the school’s charter petition. | | | | | |
| Goal 1C: The school will receive an average score of 90% or higher on the facilities survey, indicating that the school is in good or exemplar repair. | 99.9 | The facilities survey was not collected in 2020-21 due to being in distance learning. Walk through inspections have been performed in the 2021-22 school year. | 100.0% | 100% | Greater than 90% |

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

"Overall Implementation:

Maintained credentialed teachers--AJR met this goal with 100% performance rate. All our teachers are credentialed.

Access to standards aligned materials--AJR met this goal with 100% performance rate, as all of our teachers in our core classes use standards-based curriculum and materials.

Access to the educational program--at AJR 100% of our courses are in the high school course catalog. All our students have access to the educational program as outlined in our charter petition.

Participation in PE, VAPA and other electives offered--AJR met this goal with 100% performance rate. All our students take at least one visual and performing arts elective class, as well as Physical Education.

Keeping facilities in good repair--AJR met this goal with 100% performance rate. Our facilities are in good repair.

Our school did not have to make any substantive differences to our planned actions. This implementation supported us in meeting all our metrics outcome goals.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The original projected budget for the 2023-24 school year underestimated the salary ranges for teachers, school administrative staff, and new hires. The 2023-24 Actual Expenditures were higher than planned as the original budget did not account for a competitive market to retain and attract quality staff. This underestimation led to increased personnel costs in relation to salaries. Thus, resulting in material differences between planned and actual expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

"The supports AJR provided to meet Goal 1 were effective. By following the systems we have in place for personnel hiring, reviewing and maintaining high standards in curricular offerings, and maintaining expectations for all students to enroll in A-G courses and pass them with a C or better, we were able to meet these goals at 100%.

With regards to Goal 1, we are not intending to make any changes to our programs and supports to meet this goal. We are experiencing success in these areas and intend to continue our work in order to maintain our 100% success rate. If anything, we are hoping to add 2 more VAPA elective courses to our program next year. We continue to perfect the implementation of these actions to better support their effectiveness into the future. We anticipate seeing further growth in our metrics in this Goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

As we enter the new 2024-25 LCAP 3-year cycle, we have made changes to Metric 1c to mirror the data reported in our Local Indicators.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall Implementation:

This is the most challenging goal to meet in the LCAP, but we have remained diligent and persistent in our efforts to meet all the criteria of this goal. Prior to the pandemic, the ELA pass rate was 52% and the Math pass rate was 24%. Since returning to in person learning, the 21-22 pass rates remained within range of the prior years but we realize we need to make gains. In the 2022-23 school year, our ELA pass rate was 55% (3% increase) and the Math pass rate was 21% (1% decline). During the 2022-23 year, we made significant growth in our reclassification rate, from a 8% passage rate to a 22% reclassification rate, reflecting a growth of 14%. We remain committed to supporting our students as they recover from the Distance Learning experience and the difficult return experience of the last two years. It is critical that we continue the work we have done in terms of intentional, well-planned and aligned professional development for teachers in the areas of standards-based instruction and addressing the needs of EB (formerly ELL) students and students with special needs. We must also be diligent in supporting teachers in the implementation of our new curricula and in supporting our new teachers. We must also strategically plan and implement plans to support students directly, as they prepare for the SBAC and CAST exams in all the academic areas and in the area of motivation and persistence. We need to refocus our efforts on supporting our students and teachers as they prepare for these high stakes tests, while we simultaneously focus on their physical and mental health. There were no substantive differences in the planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The original projected budget for the 2023-24 school year underestimated the salary ranges for teachers, school administrative staff, and new hires. The 2023-24 Actual Expenditures were higher than planned as the original budget did not account for a competitive market to retain and attract quality staff. This underestimation led to increased personnel costs in relation to salaries. Thus, resulting in material differences between planned and actual expenditures.

As it relates to curriculum expenditures, more funds were spent on enhancing the curriculum through arts and music block grants. Our investment with this grant funding provided an enriched educational experience that is the root of material differences between actual expenditures compared to planned.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Overall Effectiveness:

Increase SBAC proficiency (ELA and Math)--At AJR we are focusing on meeting this goal this year. Although we met our LCAP ELA goal in the 22-23 school year, we did not meet our LCAP goal of increasing the percentage of students who score meet/exceeded in Math. Also, we met the component of our LCAP goal that calls for us to outperform the district average. For Math we met the district average of 20% and outperformed our local schools by at least 8%. The district average for English was 49%, and the district average for Math was 20%. We outperformed the District in the English passing rate by 6% and we outperformed our local schools by at least 5%. However, we understand that despite these successes, improving our overall and subgroup SBAC performance in both ELA and Math continues to be an identified area of need for us. Our performance in relation to the state is hopeful in ELA but we have work to do in Math. In the 2022-23 school year we outperformed the state of California in terms of distance from standard in ELA. The state performed at -13.6 distance from standard and we performed at 8.9 distance from standard. In Math the state distance from standard was -49.1 and our distance from standard was -87.9.

Increase CAST proficiency--In 2018-19 23% of our students met standard and 1% exceeded standard. On average compared to the state of California that year that had 20.54% meets standard, we outperformed the state average. Additionally, the state had 18% of students not meet standard, and we had 15% of students not meet standard. In 2022-23, 21% of our students met standard or exceeded standard. Although we did not grow and our data was lower than the state average, our percentage of met standard was within 9% of the state (state data 30.18% met standard). Our science teachers are continuing to help students better understand the concepts in science, through our district curriculum as well as embedding elements of the new Open Sci Ed curriculum, we are preparing for the upcoming exam this Spring. I am hopeful that we will be able to improve, since we have a full science faculty this year.

Increase EL proficiency on ELPAC--this will remain an important goal for us at AJR, since the test is fairly new and challenging for our students. In the Spring of 2021 it was extremely challenging to administer this exam with the students who were still in Distance Learning. We had trouble helping them prepare for this test, determining which students could come to school to take the test in person and then administering the test online to those students who were not able to come in person. I assume that our significant decrease in scores is a direct result of these significant challenges. Last year, our ELD team was able to do more prep in their classes. Students analyzed their previous year ELPAC scores to set goals for themselves. The teachers used release material to review the writing and reading sections, two of our lower performing bands. This year we have continued this practice, and we have added one more EB paraprofessional to assist teachers in supporting our growing newcomer EB student population.

Reclassify EL students--due to the switch from CELDT to ELPAC, AJR experienced a significant decrease in our reclassification rates in 2018-2019. We dipped from 26% to 9%. We then decreased even further in the 2020-21 school year to 8%. Last year we were able to bounce back and increase our reclassification numbers to 22% passing. This year and in future years, as students adjust to the demands of the new ELPAC test and as we recover from the learning loss of the pandemic, I am certain our numbers will jump back up.

One new indicator of our ELs is the ELPI, which measures growth on the ELPAC exam. Last year 47.8% of our students were making progress towards English language proficiency, which is a slight decrease from the previous year. We shared this data with our students and had one-on-one conversations with students who did not grow or decreased last year. We hope to increase this indicator with each coming year, especially now that we have more newcomers enrolling in our school.

Increase or maintain CORE SGP (ELA and Math)--At AJR in 2018-19 we scored 81% on our CORE SGP for Math and 79% on our CORE SGP for English. This represents a dip in our scores from the year prior, where we were 99% for math and 89% for English. This performance correlates with our dip in SBAC performance. Last year, we jumped back up to CORE SGP of 99% in ELA and 100% in Math. This data shows that we are definitely on the right track in terms of reestablishing rigor at our school. Our goal is to increase our SBAC scores and maintain our CORE SGP in the coming years.

As we've explained above regarding our metric outcomes, the actions we have in place are effective and we are working to perfect implementation for continued outcome growth in the future.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Entering the new 3-year LCAP cycle that begins with the 2024-25 LCAP, we have focused and refined the language in our actions to reflect the efforts and vision for the next 3 years.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall Implementation:

In terms of Goal 3, AJR met nearly all the metrics of our goal. We have a strong graduation rate (between 95%-100% including all sub-groups), a strong A-G completion rate (between 85% - 91% including all sub-groups), and a low cohort dropout rate. In the 2020-21 school year our cohort dropout rate was 0%. In the 2021-22 school year, our cohort dropout rate was 0% as well. In the 2022-23 year, our cohort dropout rate was 1%. We have a robust set of AP course offerings as well, and we have added three new AP courses (AP Psychology and AP Drawing and AP Pre-Calculus). In the last two years we dipped in AP passage rate. We assume that this dip was a direct result of both teaching AP courses and administering AP testing online via Distance Learning in 2021 and also on teacher turn-over. In 2021-22 we changed AP teachers in AP Language and we lost our AP government teacher. In the 2022-23 school year we needed to replace three AP teachers and trained new folks for AP Government, AP Spanish Language and APUSH. Our hope is that our ongoing professional development for these teachers will enable more students to pass the AP exams this May.

As described above, we intend to implement all the necessary teaching strategies, programs, interventions and supports to increase our AP scores and to maintain the success we have achieved in A-G readiness, cohort graduation rates and low drop-out rates. There were no substantive differences in the planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The original projected budget for the 2023-24 school year underestimated the salary ranges for teachers, school administrative staff, and new hires. The 2023-24 Actual Expenditures were higher than planned as the original budget did not account for a competitive market to retain and attract quality staff. This underestimation led to increased personnel costs in relation to salaries. Thus, resulting in material differences between planned and actual expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Overall Effectiveness:

A-G completion--Our graduation rates have remained steady at over the 90% range for the last three years; in the 2020-21 school year our cohort graduation rate was 95% for all students and higher for African American students (100%) and Students with Disabilities (96%). In the 2021-22 year our graduation rate was 95% for all students: for African American students our graduation rate was 100%. For EL students our graduation rate was 95%. For students with Disabilities our graduation rate was 96%. In the 2022-23 year our graduation rate was 98% for all students; for our African American students our graduation rate was 100%; for our EB students our graduation rate was 94%. This timeline highlights our continued commitment to supporting A-G completion for our students as we have maintained our high completion rates.

Our AP passing rate decreased significantly in the 2021-22 school year. In 2021-22 students' scores dropped from 84% passing rate to 31% passing rate. We attribute this drop to the challenges of both teaching and learning, as well as assessing online. In the 2022-23 school year our AP passing rates continued to be low. We had a 37% overall passing rate last year. We plan to recover from this drop and bounce back as our teachers gain proficiency in teaching AP. We have retained most of the teachers and been very intentional about upping the rigor and effectively preparing our students for the AP exams, as well as testing them in person in the best testing environment possible. We continue to perfect the implementation of these actions to better support their effectiveness into the future. We anticipate seeing further growth in our metrics in this Goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Entering the new 3-year LCAP cycle that begins with the 2024-25 LCAP, we have focused and refined the language in our actions to reflect the efforts and vision for the next 3 years.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall Implementation:

At AJR our school culture has been one of our strongest areas since our inception as a school. We performed above the state average in every criteria, except chronic absenteeism, which we attribute to Distance Learning during the pandemic and recovery when we returned to in-person learning. Although we are working to get back to our “normal” attendance rates for all students this year and in the years to come, we continue to see the effects of the pandemic on our students’ attendance and overall attitudes toward school. There were no substantive differences in the planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Average Daily Attendance (ADA) has not recovered from pre-pandemic levels and it was necessary for use to increase spending on staffing and services to address the supports that students need to encourage regular attendance. Difficulty in increasing ADA and the related need for additional resources incurred material differences in planned and actual expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Overall Effectiveness:

In 2021-22 our overall ADA was 96% and our AA ADA average was 88%. Our EL ADA average was 94%, and our Students with Disabilities ADA average was 93%. In 2022-23 school year our overall ADA was 93% and our AA ADA average was 90%. Our EL ADA average was 90% and our Students with Disabilities ADA average was 93%.

Decrease chronic absenteeism--In the 2020-21 school year AJR did not meet our goal of having 10% or less chronic absenteeism, except with Lantinx and Homeless students, which were 9%. The chronic absenteeism rate increased to 11 for all and Latinx students, 35% for African American students, 16% for EL students and 19% for Students with Disabilities. We acknowledge that this increase was due to online learning and the pandemic. The 2021-22 school year indicates that we were still recovering from the stresses and strains of the pandemic. Our chronic absenteeism rates were: 11% for SED, 19% for SPED, 35% for AA and 9% for Latinx and 11% overall. We are working to make

sure that our overall chronic absenteeism rate decreases back to 9% or lower and that each subgroup's rate also decreases. In the 2022-23 school year our chronic absenteeism rates were: 21.3% for SED, 22% for SPED, 32% for AA and 19.5% for Latinx and 21% overall. We are working to make sure that our overall chronic absenteeism rate decreases to 10% or lower and that each subgroup's rate also decreases. It continues to decrease, but not at the rate we would like it to decrease. We are doubling down on culture building efforts, outreach from staff, and gathering feedback from students on attending regularly.

Decrease suspension rate--Our suspension rate in 2020-21 decreased from 2.2% to 0%, which met our goal. Our suspension rate in 2021-22 was also 0%. Our suspension rate in 2022-23 was 0.5%.

Maintaining a low expulsion rate--AJR met our goal of having an expulsion rate of less than 0.5%. During our 2020-21 school year, our expulsion rate was 0%. During the 2021-22 year our expulsion rate was 0%. During the 2022-23 school year our expulsion rate was 0.5%.

The most significant change that we implemented over the last few years is in-person schooling, with all the incentives and benefits that it provides. In 2021-22 we also implemented an additional support program for our African American students, as a way to target specific students with high absences. This program was called Intensified Supports for Chronic Absenteeism. An attendance case manager met weekly via zoom with students "on the cusp" of being chronically absent, to help them navigate the factors which hinder them from maintaining a healthy attendance. We implemented this program from the beginning of February of 2022 to June of 2022, and we saw positive results from it. It enabled us to reach our goal of decreasing the chronic absenteeism rate for our African American students. That program was cut for us, but we continue to work closely with our AASA lead teacher and others to improve AA student attendance.

In the 2022-23 school year, some programs implemented to decrease chronic absenteeism were Attendance Works and the LEAP program. Attendance Works coordinated ongoing messaging through targeted outreach calls and mailers, a calendar of pre-programmed messages reminding parents of holidays, school days, as well as other dates that impacted attendance, and we shared our attendance progress in our monthly parent meetings. The Learner Engagement and Attendance Program (LEAP) is a program that is fully aligned with our focus on relationships and restorative practice and in fact focused on building relationships with families and assessing needs and is less about addressing absences. We saw an increase in the attendance of 54% of the targeted students. We will continue with the program and continue to monitor the attendance of our targeted students.

In the 2023-24 school year our programs implemented to decrease chronic absenteeism are include the following actions:

We monitor attendance in several different ways:

During week one of school, we made daily personal calls to absent students and we intentionally tracked the attendance for chronically absent students from the 22-23 school year to avoid having them become chronically absent within the first week.

We have continued contacting families of absent students each week for the first four weeks of school.

Each month, we track our progress on our Early Warning Indicators, to see how our subgroups are performing, compared to prior years, and as an indicator of a particular subgroup that may be struggling.

Additionally, we interviewed students individually who had been chronically absent in the 21-22 school year, and who improved in the 22-23 school year, to try and understand how the positive change occurred. We also had one on one meetings with students that were currently chronically absent to assess what is preventing them from coming to school regularly.

Lastly, we divided up the list of students at risk of becoming chronically absent, amongst the administrators, to try and support the students in case there are supports we can offer to help them get to school consistently. Our actions were effective in supporting our metrics outcomes.

We continue to perfect the implementation of these actions to better support their effectiveness into the future. We anticipate seeing further growth in our metrics in this Goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Entering the new 3-year LCAP cycle that begins with the 2024-25 LCAP, we have focused and refined the language in our actions to reflect the efforts and vision for the next 3 years. We have updated the metric description for Metric 4d to better align with similar metrics in this goal.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

| Goal # | Description |
|--------|--|
| 5 | Parent, Student and Community Engagement: <ul style="list-style-type: none"> School will have at least 4 School Advisory Council (“SAC”) meetings. The school will host at least 2 District English Learner School Advisory Council (“DELAC”) meetings. Students, families and the school community will feel a sense of connectedness. |

Measuring and Reporting Results

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Year 3 Outcome | Desired Outcome for 2023–24 |
|--|---|-----------------------------|----------------|----------------|--|
| Goal 5A: The school will host at least 4 SAC Meetings each school year | 4 or more SAC meetings were held | At least 4 SACs were held | Met Target | Met Target | At least 4 SACs are held |
| Goal 5B: The school will host at least 2 DELAC meetings each school year | 2 or more DELAC meetings were held | At least 2 DELACs were held | Met Target | Met Target | At least 2 DELACs are held |
| Goal 5C: At least 80% of parents would recommend the school to a friend per annual parent survey | 96.1% of parents recommend the school to a friend | 97.27% | 98.5% | 99.0% | At least 80% of families will recommend the school to a friend based on an internal survey |

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Year 3 Outcome | Desired Outcome for 2023–24 |
|--|---|----------------|----------------|----------------|--|
| Goal 5D: At least 80% of staff will report feeling successful based on an internal survey | 96.0% of teachers report feeling successful | 96% | 100.0% | 92.0% | At least 80% of staff will report feeling successful based on an internal survey |
| Goal 5E: 30% of parents/guardians participate in two or more events a year or increase by 3% from prior year | | 1% | 0.0% | 9.7% | At least 30% of parents/guardians participate in two or more events a year or increase by 3% from prior year |

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall Implementation:

At AJR we have been very successful at maintaining our parent, student and community engagement. We have maintained very positive relationships with all our stakeholders and enjoy support and positive feedback from them. There were no substantive differences in planned actions and the actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The original projected budget for the 2023-24 school year underestimated the salary ranges for teachers, school administrative staff, and new hires. The 2023-24 Actual Expenditures were higher than planned as the original budget did not account for a competitive market to retain and attract quality staff. This underestimation led to increased personnel costs in relation to salaries. Thus, resulting in material differences between planned and actual expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Overall Effectiveness:

At least 4 SAC meetings are held each school year--We met this goal, because we had a total of 7 SAC meetings in the 2020-21 school year. We had a total of 8 SAC meetings in 2021-22. We had a total of 8 SAC meetings in the 2022-23 school year. We are scheduled to have 8 SAC meetings in the current 2023-24 school year.

At least 2 DELAC meetings--We met this goal, because we had a total of 6 DELAC meetings in the 2020-21 year. We had 5 DELAC meetings in the 2021-22 school year. We had 5 DELAC meetings in the 22-23 school year.

Student/family sense of connectedness-- Overwhelmingly, families indicate satisfaction with the school and rate they would recommend the school, year after year. In the 2019-20 school year, we earned a 96.1% satisfaction rate, answering the question, "would you recommend this school to a friend?" In the 2020-21 school year, that rate increased to 97%. In the 2022-23 school year our satisfaction rate, based on the question, "would you recommend this school to a friend?" remained at 97%. In terms of students recommending the school, we scored 95% in 2020-2021, 91% in 2021-2022 and 89% in 2022-23. Overwhelmingly, students feel safe at school. Again, this is also in the 90% range for the last three years.

Staff sense of support--AJR hires and retains highly qualified staff members. Several staff members have been at AJR for many years, with three teachers on staff who attended AJR as students and have returned to their community to serve our students. Our school is a family and we work to embed that in all aspects of the school community. AJR currently has three administrators, two of which were previously teachers within GDPS. At AJR we take pride in our excellent Professional Development Program, which incorporates teacher voice and talent and includes differentiated sessions led by AJR faculty members. At AJR each summer the Instructional Leadership Team (ILT) creates a unit-based PD program, based on annual department PD goals, where we develop our teachers' expertise in instructional strategies, which include planning, incorporating rituals and routines and refining EL strategies, as well as accommodations and modifications for students with special needs. We also respond to teacher feedback. It has been our experience over the last several years that this PD model fosters sustained implementation and real growth among our teachers. On our staff survey in 2019-20, we earned a 96% satisfaction rate among our staff and in the 2020-21 school year we also earned a 96% satisfaction rating on the questions, "I feel successful in my role", "I am developing my professional practice" and "I enjoy my work in this community." In 2021-22 our satisfaction rating among teachers was 96%. In 2022-23 we earned a 92% satisfaction rate among our staff.

As we've explained above regarding our metric outcomes, the actions we have in place are effective and we are working to perfect implementation for continued outcome growth in the future. School culture is very important as we view it as the bedrock for improving academic student outcomes. We continue to believe our actions are effective in supporting our metric growth.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Entering the new 3-year LCAP cycle that begins with the 2024-25 LCAP, we have focused and refined the language in our actions to reflect the efforts and vision for the next 3 years. After reflection on this goal purpose and orientation for the next 3-year cycle, we have removed Metric 5d.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

Goals and Actions

Goal(s)

Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

California Department of Education
November 2023

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2024-25]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Ánimo Jackie Robinson Charter High School (AJR) is a member of the Green Dot Public Schools California network. We founded our school in July 2006 with a mission of transforming the way young adults are educated in the inner city of South Los Angeles. Green Dot is a non-profit organization that seeks to transform public education in historically-underserved urban communities in order to provide students with increased access to a rigorous college-prep education. In doing this, Green Dot’s mission is to ensure that all students graduate prepared for college, leadership and life. Our school community is situated just east of the University of Southern California. Our current enrollment is approximately 594 students in grades 9-12. Demographically, we serve a population of low income minority students, most of whom will become first generation college students. Our population is 91.2% Latinx and 7.6% African American, with over 94.4% of students qualifying for free and reduced lunch. This school year, 15.3% of our student body has special needs, and 12.5% are English Learners.

Our school is a Proposition 39 school, co-located on the campus of William J. Clinton Middle School, a Los Angeles Unified school. Throughout various staffing changes, we continue to work to establish a positive, cohesive relationship with the staff and students at Clinton MS. Collaboration between Clinton MS and our school continues to grow. Through Prop 39 meetings and creative PD we focus on developing our relationships and furthering our collaboration and consistency in an effort to support our community on a united front. Together both Clinton and AJR put our students first because a majority of AJR students attended Clinton during grades six, seven, and eight, and we serve the same families.

Ánimo Jackie Robinson’s intention is to continue to carry out our school mission to ensure that all students graduate prepared for college, leadership and life and to provide an education for our community that will equip our resilient, self-reliant, and compassionate students with the skills necessary for success in their lives. Ultimately, we want to inspire our students to become agents of change, empowered with a unique voice, critical thinking skills, and the knowledge necessary to improve the world and transform the cultural landscape. This mission was exemplified in the 2023-24 school year, our school was recognized as a California Distinguished School, and was 1 of 51 such schools to be identified in the Los Angeles area.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

AJR offers a comprehensive college-preparatory academic program. All students are enrolled in courses that meet the A-G requirements for the California State University/University of California college systems. In the 2020-21 school year 89% of our students graduated A-G ready. In the 2021-22 year we had 81% of our students graduate A-G ready. In 2022-23 we had 86% of our students graduate A-G ready. We offer a significant number of Honors and AP courses to our advanced students in an effort to increase their college-readiness, as well as increasing our summer enrichment courses for underclass students. We also offer a comprehensive Special Education program and a substantial intervention program for struggling learners, including a comprehensive Emerging Bilingual (EB) program of designated and integrated EB courses for our Emerging Bilingual students. We pride ourselves in the fact that we have established a safe, nurturing yet challenging academic environment for all students.

Ánimo Jackie Robinson's intention is to continue to carry out our school mission to ensure that all students graduate prepared for college, leadership and life and to provide an education for our community that will equip our resilient, self-reliant, and compassionate students with the skills necessary for success in their lives. Ultimately, we want to inspire our students to become agents of change, empowered with a unique voice, critical thinking skills, and the knowledge necessary to improve the world and transform the cultural landscape.

All of the work of our talented staff has enabled us to achieve either blue, green or yellow in most areas of the California dashboard.

Reflections: Successes

In the 2020-21 school year AJR improved our cohort dropout rate by taking it down to 0%. In the 2021-22 school year we maintained it at 5%. In 2022-23 our drop out rate remained very low, at 6%. In 2020-21 we increased our A-G readiness percentages to 89% and, though it dropped to 81% in 2021-22, we are already seeing A-G growth. In the 2022-23 school year our A-G readiness was 86%. We have maintained a high percentage of at least 95% of students graduating from high school. 0.5% of students were suspended or expelled in 2022-23, up only .5% from the prior two years. Two years ago in 2020-21 we added new AP courses, and we are more effectively placing students into those courses in an effort to widen our net of college readiness for all. In 2021-22 we added two more AP classes. In 2022-23 we added an additional 2 AP courses. In each of the last three years, we are supporting more students in AP classes, and our students are doing better overall in terms of their social-emotional health.

Our overall attendance rate is at least 96%, our overall retention rate of both students and teachers is extremely high. Overwhelmingly, families indicate satisfaction with the school and rate they would recommend the school, year after year. In terms of students recommending the school, we achieved 97% on the satisfaction survey. Teachers also stay at AJR, indicating that they appreciate and contribute to the positive school culture we have created at our school. We achieved a 96% in teacher satisfaction on their survey last year. These highlights indicate that we are building a learning community that is both challenging and nurturing to all our students. We acknowledge that our students and families are happy to attend our school, and our data demonstrates this with 97% of families indicating that they would recommend our school to a friend.

Reflections: Identified Needs

The LCAP data reflected a need to focus on three major areas: continued growth ELA and Math proficiency, English Learner progress, and chronic absenteeism for all students. We also acknowledge that the effects of the pandemic will be significant and long-lasting. We have enjoyed an increase in our SBAC ELA and Math scores overall in recent years, but our performance rate, although higher than local LAUSD schools, had declined for four straight years, and although we increased in ELA in the 2022-23 school year, we remained at 21% in Math and Science. We know that our scores need to improve. To address this, we are continuing to use the i-Ready assessment to help teachers monitor the growth of our students at all grade levels in math and to cater the math program to meet the needs of students, who are struggling in math in their classes. Additionally, teachers are working with the Illustrative Math (IM) curriculum and continue to receive professional development and coaching from Green Dot's curriculum specialists who work one on one with math teachers to develop skills appropriate for 9-12 grade math. Teachers continue to receive ongoing professional development to support from our local CS's and our admin team, as they roll out the new curriculum.

In 2019-20 our reclassification rate was 9.6%. In the 2020-21 school year we decreased further, achieving a 5.3% reclassification rate. This is a problem we need to continue to address. In 2021-2022, we were able to bring our reclassification rate to 8%. We were able to increase our reclassification rate in the 2022-23 school year to 22%, which is promising, but we still have a ways to go. We have established our own site-based EB Lead Teacher to help ensure that all our teachers are better equipped to meet the needs of our EB students and that each of our students has a specialized plan to receive support in core subject areas. Additionally, teachers will continue working with Reading Inventory (RI), a nationally recognized program, to support English Learners in gaining literacy skills. Still, our EL students are performing at a significantly lower rate on the SBAC and in other measures of the LCAP. We are continuing to address this important issue in several ways, including professional development for our teachers to support them with integrating EL standards, language criteria and instructional strategies into their daily practice. We intend to continue this very intentional professional development in the coming years, and to integrate it with our PD that supports our teachers in rolling out their two new curricula. Our math teachers attended Illustrative Math Professional Development to incorporate language development in their courses more explicitly. Additionally, we have added 11th and 12th grade courses, ELD Curriculum Skills 11 and 12, specifically for our LTELS, in an effort to support them in their English language development, as well as in their overall academic progress. We are also implementing ELCAP supports, so that our EL students will receive more intentional support, as they prepare for this rigorous exam. We have also increased our paraprofessional staff to two aides, which is up from last year. We will have 3 EB aides next year, which we anticipate will help our newcomers tremendously.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

"Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Not applicable

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Not applicable

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Not applicable

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

| Educational Partner(s) | Process for Engagement |
|------------------------|--|
| Teachers | <p>During the 2023-2024 school year, Ánimo Jackie Robinson Charter High School used several outreach strategies to engage with educational partners, specifically our teachers, on the LCAP. Ms. Botello, our principal, reviewed the 2023-24 LCAP with the School Advisory Council (SAC). Since the first SAC meeting, Ms. Botello has referred to the LCAP and its goals during subsequent SAC meetings to ensure the LCAP is kept top of mind. The SAC is composed of administrators, teachers, counselors, classified staff members, parents and students. The SAC also includes representation from the Asociación de Maestros Unidos, the union that represents Green Dot’s certificated staff. At the end of the school year, Teachers on our SAC voted to approve our LCAP before sending to our governing board for final approval in June. The LCAP will be submitted to the Authorizing School District and the Los Angeles County Office of Education in June. The Green Dot Home Office, School Leadership and SAC will regularly monitor and evaluate progress made towards the School’s LCAP goals.</p> |

| | <p>includes representation from the Asociación de Maestros Unidos, the union that represents Green Dot’s certificated staff.</p> <p>The principal also utilizes other meetings to gather input and feedback on our LCAP development process, including Coffee with the Principal (CWTP), which occurs during the first Friday of every month in Spanish. We hold our Black Parent Advisory Committee (BPAC) meetings quarterly. At the CWTP and BPAC meetings Ms. Botello provides parents the opportunity to provide feedback and recommendations on items directly related to our LCAP goals. We also facilitate regular parent workshops, whose content is established directly from input from parents at both the CWTP and SAC meetings, which are driven by our LCAP goals.</p> |
| Administrators | <p>During the 2023-2024 school year, Ánimo Jackie Robinson Charter High School used several outreach strategies to engage with educational partners, specifically our administrators, on the LCAP. Our principal and school administrators reviewed the 2023-24 LCAP with the School Advisory Council (SAC). Since the first SAC meeting, Ms. Botello has referred to the LCAP and its goals during subsequent SAC meetings to ensure the LCAP is kept top of mind. The SAC is composed of administrators, teachers, counselors, classified staff members, parents and students. The SAC also includes representation from the Asociación de Maestros Unidos, the union that represents Green Dot’s certificated staff. Our administrators, along with other members of SAC, approved the LCAP at the end of the school year before sending to our governing board for final approval in June. The LCAP will be submitted to the Authorizing School District and the Los Angeles County Office of Education in June. The Green Dot Home Office, School Leadership and SAC will regularly monitor and evaluate progress made towards the School’s LCAP goals.</p> |
| Other School Personnel | <p>During the school year, the school uses several outreach strategies to engage with educational partners on the LCAP. The School Advisory Council (“SAC”) has reviewed goals, outcomes data, and expenditures data at multiple points throughout the year. The SAC is composed of administrators, teachers, counselors, classified staff</p> |

| Educational Partner(s) | Process for Engagement |
|------------------------|--|
| | <p>members, parents and students. Classified Staff members in the SAC have the opportunity to provide specific feedback on the various elements and identify areas of success and challenge to focus on in the coming year.</p> |
| <p>Parents</p> | <p>During the 2023-2024 school year, Ánimo Jackie Robinson Charter High School used several outreach strategies to engage with educational partners, specifically our parents, on the LCAP. Ms. Botello, our principal, reviewed the 2023-24 LCAP with the School Advisory Council (SAC). Since the first SAC meeting, Ms. Botello has referred to the LCAP and its goals during subsequent SAC meetings to ensure the LCAP is kept top of mind. The SAC is composed of administrators, teachers, counselors, classified staff members, parents and students. The SAC also includes representation from the Asociación de Maestros Unidos, the union that represents Green Dot's certificated staff. Parents are key members of our SAC, and as mentioned above, we meet monthly to keep track of school outcome progress and our LCAP goals. This educational partner is key in understanding how to improve student outcomes for our students. Additionally, Emergent biligual parents are key members of DELAC, who also reviews and approves the LCAP through feedback and input. Our principal also provides spaces to engage parents more thoughtfully through our Coffee with Principal. This feedback is then used during the development process of the LCAP.</p> <p>The school also utilizes other meetings, including Coffee with the Principal (CWTP), which occurs during the first Friday of every month in Spanish. We hold our Black Parent Advisory Committee (BPAC) meetings quarterly. At the CWTP and BPAC meetings Ms. Botello provides parents the opportunity to provide feedback and recommendations on items directly related to our LCAP goals. We also facilitate regular parent workshops, whose content is established directly from input from parents at both the CWTP and SAC meetings, which are driven by our LCAP goals. | SELPA | Our SELPA is provided our LCAPs early in our process for review and feedback to ensure that we are providing the proper support, documentation, and explanation of the supports we provide our Students with Disabilities. |

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

At each SAC and DELAC meeting, we gather input and feedback from parents and other stakeholders, including students, teachers and classified staff. We take notes on the feedback, and we collect the minutes from the meeting to share with all staff and parents. We use this feedback to continue to formulate goals and to develop our budgets and discuss how monies are spent at school. We also offer recommendations to the various committees, such as ILT and EB leads, to improve existing curricular programs or interventions. Each year we review the progress made towards LCAP goals during the SAC meetings and offer feedback and suggestions on how we can revise goals and actions for the coming year, which the principal takes to the school's leadership team to incorporate into the summer planning.

Goals and Actions

| | | <p>The school analyzes data on a regular basis to support the Emerging Bilinguals in growth in language development. Data analysis supports the school matrix providing students with designated supports as needed while all courses focus on integrated instruction. Teachers are provided with professional development throughout the year including language objectives for daily lessons.</p> <p>The schools leverages the Ellevation platform to progress monitor Emerging Bilingual students and provide teachers with strategies for instruction. Practice tests are available for students to prepare for the English Language Language Proficiency Assessment (ELPAC). An Emerging Bilingual Lead (EB Lead) is a teacher leader on campus who collaborates with the Emerging Bilingual Coordinator on how to best support students based on data.</p> <p>In addition, to targeted language support a may also be enrolled in a Literacy Intervention course to support their reading needs where support in language acquisition may also be provided.</p> <p>The English Language Arts courses support the Emerging Bilingual students on campus as the ELA department collaborates frequently to support the success of this student group. The school has adopted My Perspectives, a standards aligned curriculum, for Grades 6 through 12 English Language Arts courses. Professional Development is provided annually before the start of the school year to review curriculum, assessments, and recommended pacing plans in all grade levels. In addition to this professional development, the school is assigned a Literacy Curriculum Specialist, who provides targeted coaching and support to English Language Arts teachers on campus. The Curriculum Specialist meets monthly with the designated administrator over ELA to ensure alignment in supports for teachers and may also attend weekly school site professional development or ELA department meetings as needed. Common assessments from the curriculum are used to progress monitor student growth on standards and a common data analysis protocol is used to identify targeted standards for re-teaching.</p> <p>A universal screener assessment is given three times per year to provide</p> | | |

Goal Analysis [2023-24]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Not Applicable.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Not Applicable.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable.

Actions

| Action # | Title | Description | Total Funds | Contributing |
|----------|--------------------------------------|--|--------------|--------------|
| 5.1 | Parent Engagement and Participation: | <ul style="list-style-type: none"> The School Advisory Council (SAC) is comprised of the principal, teacher, staff members, parents and community members Green Dot District English Learner Advisory Council bylaws ensure two parents are elected to the serve on the District English Learner Advisory Council (DELAC) Parent participation on the SAC and DELAC allows for parents to have input into school policies and budget, and regularly reviews school data School has a Parent Coordinator whose responsibilities include planning activities, managing communications with parents/guardians, coordinating monthly parent workshops on relevant topics, supports in the hosting of meetings with our DELAC and SAC. ParentSquare is frequently used to communicate with parents, staff, and teachers on upcoming school events, celebrations, activities, and SAC/DELAC meetings and topics. | \$248,708.48 | Yes |
| 5.2 | Communications: | <ul style="list-style-type: none"> School communicates with parents regularly via monthly letters, calendars, and the use of Parent Square School hosts annual events including orientation, back-to- school night and other activities to engage parents in the school community School administers an annual family and staff survey to garner feedback from parents on all aspects of the school including teacher performance, school safety and stakeholder satisfaction School analyzes surveys each year to improve school connectedness and inform the work of the Parent Coordinator. | \$126,433.11 | No |

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

| Goal and Action # | Identified Need(s) | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis | Metric(s) to Monitor Effectiveness |
|-------------------|---|--|--|
| 1.2 | <p>Action: Academic - Curriculum Design:</p> <p>Need: To ensure that all students have access to grade -level standard aligned curriculum To ensure student groups (EB, SWD) have access to appropriate courses and targeted supports with the master schedule be appropriate staff</p> | <p>We will provide a core curriculum (Illustrative Math, My Perspectives and Open Sci- Ed) that is standards- aligned to grade level with professional development for teachers.</p> <p>We will provide integrated, designated and special education courses that increase access to language development and core content for student groups.</p> | <p>1a - Credentialed Teachers 1b - Broad Course of Study</p> |

| Goal and Action # | Identified Need(s) | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis | Metric(s) to Monitor Effectiveness |
|-------------------|--|--|--|
| | <p>Scope: LEA-wide</p> | <p>The actions will provide students with access to grade level content and the scaffolds to master content aligned to standards The actions will increase student proficiency of standards as measured by state assessments and student grades.</p> | |
| <p>1.3</p> | <p>Action: Academic - Master Scheduling & Staffing:</p> <p>Need: To ensure the master schedule is data driven using universal assessment data to meet the needs of students.</p> <p>Scope: LEA-wide</p> | <p>We will assess student data on state assessments and universal screeners (RI and i- Ready) to develop a master schedule that is data driven and offers core and support classes.. The actions will provide students with opportunities for learning acceleration in support classes alongside access to a course of study for college readiness.</p> | <p>1a - Credentialed Teachers 1b - Broad Course of Study</p> |
| <p>2.1</p> | <p>Action: Curriculum, Resources and Materials to Support Student Subgroups:</p> <p>Need: To ensure that student subgroups have access to curriculum and support resources to increase mastery of grade level standards.</p> <p>Scope: LEA-wide</p> | <p>We will provide training and development for the ELlevation platform to support students' language development. We will provide professional development for co-teaching pairs including Universal Design for Learning support Special Education students</p> <p>The actions will provide student subgroups with the materials to support and increase academic outcomes.</p> | <p>2a - SBAC ELA 2b - SBAC Math 2c - CAST (Science) 2f - CORE SGP ELA 2g - CORE SGP Math</p> |
| <p>2.2</p> | <p>Action: Support for EL Students:</p> <p>Need:</p> | <p>We will provide professional development to teachers to ensure integrated classrooms include a language objective and opportunities for discourse to foster language development for EL students.</p> | <p>2d - EL Reclassification 2e - ELPI Levels</p> |

| Goal and Action # | Identified Need(s) | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis | Metric(s) to Monitor Effectiveness |
|-------------------|--|--|--|
| | <p>To ensure that EL students have increased academic supports to foster language development and overall academic outcomes.</p> <p>Scope: LEA-wide</p> | <p>The actions will provide students with language opportunities in all courses to foster language development and increased language proficiency.</p> | |
| <p>2.5</p> | <p>Action: Professional Development</p> <p>Need: To ensure that teachers are provided the support needed to effectively meet the needs of students with rigorous classroom instruction.</p> <p>Scope: LEA-wide</p> | <p>We will provide 10 day of professional development for teachers during the school year including content focused days with student work analysis to progress monitor success,</p> <p>The actions will provide teachers with the opportunity to learn from content leads, collaborate with colleagues across Green Dot’s network of schools and progress monitor student outcomes for real- time intervention for students with re-teaching opportunities for key standards.</p> | <p>2a - SBAC ELA 2b - SBAC Math 2c - CAST (Science) 2f - CORE SGP ELA 2g - CORE SGP Math</p> |
| <p>2.8</p> | <p>Action: Credit Recovery:</p> <p>Need: To ensure that students are provided with increased opportunities for credit recovery to support their progress towards graduation and college readiness.</p> <p>Scope: LEA-wide</p> | <p>We will offer credit recovery opportunities for students which include online courses, summer school and Extended Semester to allow students to demonstrate mastery of standards to pass courses.</p> <p>The actions will provide students with individualized paths to recouping credits during the school year and summer to increase the number of graduates.</p> | <p>2a - SBAC ELA 2b - SBAC Math 2c - CAST (Science) 2f - CORE SGP ELA 2g - CORE SGP Math</p> |
| <p>2.9</p> | <p>Action: Support for Long Term English Learners</p> | <p>We will provide professional development and coaching on strategies in the Ellevation platform to</p> | <p>2d - EL Reclassification 2e - ELPI Levels</p> |

| Goal and Action # | Identified Need(s) | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis | Metric(s) to Monitor Effectiveness |
|-------------------|--|--|--|
| | <p>Need: To ensure that Long Term EL students have increased academic support to foster language development and overall academic outcomes.</p> <p>Scope: LEA-wide</p> | <p>ensure that language objectives are coupled with strategies for Long Term EL students.</p> <p>The actions will support language development for students, mastery of content and progress toward reclassification to being fully English proficient.</p> | |
| 3.1 | <p>Action: Counseling:</p> <p>Need: To ensure that students are provided with increased academic counseling and social-emotional counseling as determined by academic outcomes, staff referrals and universal screener data.</p> <p>Scope: LEA-wide</p> | <p>We will provide students with social- emotional counseling and access to external partners to support their mental health and behavior needs.</p> <p>We will provide students with academic counseling to support positive engagement in school and a path to A-G and college readiness.</p> <p>The actions will allow our counselors to assist students and families with both academic and social- emotional needs that are driven by data.</p> | <p>3a - Cohort Dropout 3b - Cohort Grad Rate 3c - A-G 3d - AP 3e - CCI</p> |
| 4.2 | <p>Action: Services for Systems of Support:</p> <p>Need: To ensure that systems are in place to progress monitor attendance and student discipline frequently to provide real - time support to students.</p> <p>Scope: LEA-wide</p> | <p>We will provide universal support for attendance with parent communication through Parent Square and intensified support through the SART process.</p> <p>We will provide schools with professional development on Restorative Practices to provide proactive and responsive support to student behaviors to minimize suspension and prioritize student learning with restoration.</p> <p>The actions will allow schools to progress monitor data for attendance and behavior and provide real-time support for students with additional needs.</p> | <p>4a - ADA 4b - Chronic Absenteeism 4c - Suspension Rate</p> |

| Goal and Action # | Identified Need(s) | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis | Metric(s) to Monitor Effectiveness |
|-------------------|---|---|--|
| 5.1 | <p>Action: Parent Engagement and Participation:</p> <p>Need: To ensure that parents are meaningfully engaged in the student learning experience through frequent communication and opportunities to interact with the school.</p> <p>Scope: LEA-wide</p> | <p>We will establish a cadence of communication with parents to ensure timely feedback and opportunities to engage with the school.</p> <p>We will establish a calendar of events to engage parents in school activities and celebrations.</p> | <p>5a - SAC Meetings 5b - DELAC Meetings 5c - Family Surveys</p> |
| 5.3 | <p>Action: Community Partnerships:</p> <p>Need: To ensure that school is leveraging community partners to support student academic and social- emotional needs.</p> <p>Scope: LEA-wide</p> | <p>We will identify partners in the community and develop an asset map to ensure school communities are connected to resources within the community.</p> <p>The actions will support student success by connecting them to community resources and meaningfully engaging families in their academic progress.</p> | <p>5a - SAC Meetings 5b - DELAC Meetings 5c - Family Surveys</p> |

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

| Goal and Action # | Identified Need(s) | How the Action(s) are Designed to Address Need(s) | Metric(s) to Monitor Effectiveness |
|-------------------|--------------------|---|------------------------------------|
|-------------------|--------------------|---|------------------------------------|

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Not applicable

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Our LEA has been using our Additional Concentration Grand funding to hire staff to provide direct services for our unduplicated student groups. Below we outline our efforts in regards to Free and Reduced Lunch, English Learners, and Foster Youth. Additional Concentration Grand funding supports increasing the number of credentialed staff to ensure that students receive personalized academic assistance to meet grade-level standards. These funds were also used to hire instructional staff trained to implement and support the i-Ready diagnostic and instructional program. These staff members provide direct services, ensuring personalized learning paths are effectively utilized. Schools demonstrating the greatest need for diagnostic assessments and personalized instruction received additional staff to maximize the impact of the i-Ready program. Funding supports the hiring of credentialed elective teachers to offer courses like Project Lead The Way (PLTW) and AEE, providing students with hands-on, project-based learning experiences in STEM and the arts. As we are continuing to push forward from the onset of the Covid-19 pandemic, we are focused on reducing Chronic Absenteeism rates, specifically for our unduplicated students. Funds are allocated to hire additional staff focused on reducing chronic absenteeism, utilizing programs like Everyday Labs and Attendance Works to engage with students and families directly. The grant funds are used to hire and support credentialed staff that manage and implement the Ellevation platform, providing targeted instructional strategies and support to English learners. Supporting Foster Youth and Homeless students is a high priority given our region’s area of need. This funding supports the hiring of additional credentialed staff to deliver a specialized advisory curriculum tailored to the needs of foster youth and homeless students, addressing their social-emotional and academic challenges. The grant funds additional staff to run Summer Bridge programs, assisting foster youth and homeless students in transitioning between grade levels or new schools with academic and social-emotional support. Funds are used to hire case managers and form partnerships with external mental health organizations, providing comprehensive mental health services to foster youth and homeless students.

| Staff-to-student ratios by type of school and concentration of unduplicated students | Schools with a student concentration of 55 percent or less | Schools with a student concentration of greater than 55 percent |
|---|--|---|
| Staff-to-student ratio of classified staff providing direct services to students | | 14:602 |
| Staff-to-student ratio of certificated staff providing direct services to students | | 38:602 |

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in EC sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of EC sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

| Metric | Baseline | Year 1 Outcome | Year 2 Outcome | Target for Year 3 Outcome | Current Difference from Baseline |
|--|--|---|---|--|--|
| Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric. | Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric. | Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then. | Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then. | Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric. | Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then. |

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

- For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
- As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
- These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If “Yes” is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

- This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**

- This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**

- This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**

- This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**

- This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
