

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Ánimo Legacy Charter Middle School

CDS Code: 19 64733 0124016

School Year: 2025-26

LEA contact information:

Annette Gonzalez

Chief Education Officer

angonzalez@greendot.org

323-565-1600

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

This chart shows the total general purpose revenue Ánimo Legacy Charter Middle School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Ánimo Legacy Charter Middle School is \$16,409,865, of which \$11,794,393 is Local Control Funding Formula (LCFF), \$3,174,215 is other state funds, \$37,000 is local funds, and \$1,404,257 is federal funds. Of the \$11,794,393 in LCFF Funds, \$3,325,546 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The charts in the Budget Overview for Parents are automatically generated based on your updates in the input form of the standalone template in DTS. There is no need to insert images.

Please contact DTS if you would like support with overlapping labels. Thank you!

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Ánimo Legacy Charter Middle School plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Ánimo Legacy Charter Middle School plans to spend \$16,409,865 for the 2025-26 school year. Of that amount, \$15,230,602 is tied to actions/services in the LCAP and \$1,179,263 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

All other funds that are not identified in the Local Control and Accountability Plan are allocated to personnel salaries and benefits and operational expenses such as rent, maintenance costs, debt service, material and supplies, furniture and fixtures, technology, legal services, janitorial services, security services, authorizer fees and other miscellaneous professional services.

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Ánimo Legacy Charter Middle School is projecting it will receive \$3,325,546 based on the enrollment of foster youth, English learner, and low-income students. Ánimo Legacy Charter Middle School must describe how it intends to increase or improve services for high needs students in the LCAP. Ánimo Legacy Charter Middle School plans to spend \$2,614,518 towards meeting this requirement, as described in the LCAP.

It is important to note that very nearly all enrolled students are socioeconomically disadvantaged (low income), meaning that nearly all planned and actual Goal Action expenditures inherently serve high needs students, regardless of being established as a targeted "Contributing Action". Additionally, the variance can be attributed to multiple external factors, including a challenging enrollment environment experienced by all LEAs in coastal Southern California and uncertainty in federal education policy and awarded funds. In 2025–26, as seen in each Goal section, to ensure compliance with the LCFF LCAP requirements to improve services for our high need students, the school is ensuring that general fund expenditures continue to directly support high needs students, strategically investing in targeted interventions, expanded

mental health supports, and academic acceleration initiatives.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Ánimo Legacy Charter Middle School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Ánimo Legacy Charter Middle School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Ánimo Legacy Charter Middle School's LCAP budgeted \$6,037,140 for planned actions to increase or improve services for high needs students. Ánimo Legacy Charter Middle School actually spent \$5,253,283 for actions to increase or improve services for high needs students in 2024-25.

The difference between the budgeted and actual expenditures of \$783,857 had the following impact on Ánimo Legacy Charter Middle School's ability to increase or improve services for high needs students:

While estimated actual expenditures were slightly less than budgeted, the school successfully implemented all planned actions and services for high needs students. It is important to note that nearly all enrolled students are socioeconomically disadvantaged (low income), meaning that all planned and actual Goal Action expenditures inherently serve high needs students, regardless of being established as a targeted "Contributing Action". As such, despite the lower-than-anticipated estimated actuals, the school remained committed to maintaining the overall level of support, access, and quality of services intended to increase or improve outcomes for specific targeted student groups.

Moreover, the variance can be attributed to multiple external factors, including a challenging enrollment environment experienced by all LEAs in coastal Southern California, only modest increases in average daily attendance (ADA), and uncertainty in federal education policy and awarded funds. Consequently, the catastrophic fires in Los Angeles during the school year resulted in multiple days of closure, heavy pollution, and student and staff emotional distress; which resulted in a disruption of planned service delivery and implementation timelines.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Ánimo Legacy was established in 2019 after merging two schools on campus formerly known as Ánimo Phillis Wheatley and Ánimo Western. Ánimo Legacy serves the greater West Athens community with students from neighboring communities such as Compton, Gardena, Hawthorne and Inglewood. Since its recent iteration, Ánimo Legacy has experienced many shifts that have led to growth and challenges. One of these shifts include a global pandemic. While shifting to distance learning, we ensured we met the needs of educational partners and ramped up our partnerships with organizations providing a wealth of resources. While pressing through these challenges, we continued to press into meeting every element of our school vision. At Ánimo Legacy, we commit to providing a high quality education to all students by providing a collaborative, inclusive and anti-racist environment where all educational partners feel safe. We commit to creating agents of change by developing and leveraging students’ academic strengths, personal talents, and social-emotional awareness by fostering a culture of rigorous, equitable instruction, self-advocacy, and social responsibility. We value deep collaboration and unique professional learning experiences for staff. Our family educational partners are consistently involved in our school community through our special committees and celebrations on campus. Our diverse population of learners makes meeting our vision even more critical. Ánimo Legacy currently serves 885 students with a student body composed of 65.6% latinx, 31% black, 19.7% English Learner students, and 20% Students with Disabilities.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

The schoolwide ELA score was 93.4 points below standard, a decline from the previous year. Student groups, particularly African American (-108.7), English Learners (-109.5), and Students with Disabilities (SWD) (-133.4), performed significantly below the state average. The schoolwide Math score was 136.6 points below standard, showing a further decline from the previous year. Similar to ELA, African American (-155.9), English Learners (-147.9), and SWD (-165.3) scored significantly below state averages. Contributing factors to these results include staffing issues, long-term substitute teachers, and a high percentage of students entering below grade level. Only 36.7% of English Learners made progress, a decline of 8.5%, and below the state average of 45.7%. This highlights a need for better instructional support, targeted interventions, and improved accommodations. The chronic absenteeism rate was 29%, down from 36.6% in 2023 but still above the state average (18.6%). Strategies have been implemented, such as hiring a Chronic Absenteeism Case Manager, incentive programs, and targeted student interventions. The suspension rate was below 1%, showing effective use of restorative justice practices and community support centers.

In the 2023 CA Dashboard, the school received a red performance level in the ELA indicator for whole-school, English Learners (ELs), Hispanic, and Socioeconomically Disadvantaged (SED) students. The 2024 CA Dashboard data showed a further decline, with the schoolwide ELA score at 93.4 points below standard, down from 76.3 points below standard in 2023. In response to these challenges, Legacy has put in place a series of strategic measures designed to address both the immediate and systemic issues contributing to low performance. Recognizing the importance of a stable teaching force, the school has adopted an ongoing recruitment strategy, extending the interviewing process into the summer months. This proactive approach aims to ensure that classrooms are staffed with highly qualified teachers who can deliver the consistent, high-quality instruction necessary for student success. We've made strategic reassignment of instructional staff, including an experienced Intervention & Designated ELD teacher for 6th grade to support early intervention. Finally, we've enhanced teacher professional development, with weekly instructional coaching and support from curriculum specialists and instructional leaders. This year, we've adopted the NWEA MAP assessments to track student growth and provide data-driven instruction. We are also increasing our development and execution of SBAC Academy which is a specialized intervention program for students near proficiency levels to improve test-taking skills and content mastery. We have also implemented the Wilson Reading Program. This is implemented for students with disabilities (SWD) to improve foundational literacy skills. We have strengthened our efforts in implementing Integrated ELD Professional Development which trains all teachers to implement language scaffolding and accommodations for ELs. We've revised the grading policy for ELs to ensure equitable assessment and accommodations on major assignments. Finally, we've increased academic discourse strategies emphasizing structured discussions like Think-Write-Discuss-Report (TWDR) to strengthen verbal and written communication.

In the 2023 CA Dashboard, the school received a red performance level in the Mathematics indicator for whole-school, English Learners (ELs), Hispanic, and Socioeconomically Disadvantaged (SED) students. Unfortunately, the 2024 CA Dashboard showed further declines, with the schoolwide Math score at -136.6 DFS, compared to -128.7 DFS in 2023. Given these results, the school has taken a multi-tiered approach to improving student performance in Mathematics, focusing on teacher stability, targeted intervention, and enhanced student engagement. There are a multitude of factors that contribute to a DFS for the 2023-2024 school year (SY) at Ánimo Legacy Charter Middle that was lower than the state average. In general, the DFS for Legacy's incoming 6th grade cohort has continued to increase from 2019 to 2023, while LAUSD saw an decrease from 2022 to 2023. The widening of this gap has made it increasingly difficult to catch students up to grade level while enrolled at Legacy. Furthermore, this increase in DFS is mirrored by a decrease in students starting on grade level as seen

in the baseline iReady data for 6th grade cohorts from the 2022-2023 SY to the 2023-2024 SY (see below). In addition to the decrease in proficiency at the time of enrollment, a combination of systemic issues and extraordinary circumstances during the 2023-2024 SY in particular contributed to the 7.9 point decline in DFS from the previous year. Paramount amongst these were staffing issues. During the 2023-2024 SY Legacy had 3 long-term subs (LTSs) in the math department as well as 1 first year teacher. 3 math teachers went on leave, two for extended periods of time. Additionally, the tragic loss of one of our Assistant Principals at the beginning of the year resulted in an understaffed Admin team for the duration of the year. For the staff that were here, extensive callouts led to all teachers (not just Math) covering other classes, thus losing essential prep and planning time. We've strengthened our teacher quality and sustainability by implementing a student-teacher mentoring program, leading to permanent hires and improved instructional consistency. Our Math instructional leaders attend PD every other month, focusing on data-driven instruction and best teaching practices. We have increased collaboration among teachers, curriculum specialists, and instructional administrators to refine instructional strategies. We have adopted iReady Pro to implement frequent assessments to track student growth and adjust instruction accordingly. This also allows personalized learning pathways for students who are multiple grade levels behind. We've expanded our math support programs through SBAC Academy that specializes in intervention for students on the cusp of proficiency, providing sessions during Spring Break to strengthen key skills. This year, we've implemented Specialized Math Advisories. These advisories provide small-group instruction for students performing just below grade level, with additional targeted practice. We've also implemented authentic test prep by embedding SBAC-released questions throughout instruction to ensure test alignment. We've also implemented DOK (Depth of Knowledge) training for teachers to increase the rigor of classroom questioning. We've continued High-Impact Tutoring (HIT) that focuses on small-group tutoring for bubble students, prioritizing support for African American and English Learner students. We've also expanded our co-taught math classes to increase access to general education instruction for Students with Disabilities (SWD) through co-taught Math 6 classes.

In addition to the great work being done to address challenges, we also want to highlight successes and accomplishments. This year, Legacy School has made significant strides in supporting the academic and emotional growth of its students, with several key initiatives and partnerships driving success:

Establishment of Community Support Centers (CSCs): Legacy introduced CSCs for each grade level to enhance support services for students. These centers are staffed by a dedicated team, including an Assistant Principal, Student Support Specialist, School Counselor, School Psychologist, Mental Health Therapist, and Restorative Practices Coordinator. By providing individualized emotional, social, and psychological support, the CSCs help students manage stress, build resilience, and improve peer interactions. This holistic approach ensures that students receive the necessary support to overcome personal challenges and achieve academic success.

Partnership with Seneca Family Agencies: Legacy formed a valuable partnership with Seneca Family Agencies to place an Unconditional Education coach at our site full-time. This coach plays a crucial role in offering professional development and targeted guidance to foster a positive and restorative school culture. This collaboration supports our ongoing efforts to promote student well-being and a nurturing learning environment.

Academic Growth: Legacy students have demonstrated impressive progress on key academic assessments. From fall to winter, 40% of students met their typical growth goal for the year on iReady assessments, and 12% achieved their stretch growth goals. It's important to note these are annual goals and students have already demonstrated end of year growth. Similarly, on MAP assessments, 40% of students met or exceeded their growth goals, indicating strong academic improvement. A lot of our growth is attributed to full time support from our New Teacher team and Math and ELA curriculum specialist.

These accomplishments highlight Legacy's commitment to supporting the whole student—emotionally, socially, and academically—ensuring each child has the resources needed to thrive.

Additional Targeted Support & Improvement ("ATSI") Update: In the previous school year, our school was identified for Additional Targeted Support and Improvement due to outcomes for our Foster Youth. Since that designation we have been hard at work to better serve this student group across all Dashboard indicators. Unsurprisingly, with the release of the 2024 Dashboard, our Foster Youth made significant improvement in Chronic Absenteeism and Suspension rates. The state recognized this achievement by confirming that we have exited our ATSI designation. This is a great achievement and represents all the hard work of our staff and students that we implemented from our ATSI plan.

Learning Recovery Emergency Block Grant (LREBG):

At the end of the 2024-25 school year, we had \$290,428 remaining of our Learning Recovery Emergency Block Grant. Aligning with LREBG allowable uses and to support our student needs to continue their growth in ELA and Mathematics, funds are supporting LCAP actions Goal 1 Action 1. This action supports the employment of ELA and Mathematics credentialed subject area teachers who have the skills and experience to support student academic outcomes, an identified student need as we work towards a Green and Blue indicator on the CA School Dashboard.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

“Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Not applicable

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Not applicable

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Not applicable

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers	The School Advisory Council (SAC) serves as a key platform for gathering feedback from parents, teachers, classified staff, and students. Discussions focus on student achievement data, school priorities, and funding allocations. Stakeholders provide input on programs and services that support student learning and well-being. Teachers participate in structured professional development sessions to review student performance trends and provide recommendations for curriculum, instruction, and interventions. These sessions ensure that teacher insights shape the LCAP's academic priorities and professional growth opportunities.
Principals	The Principal leads and is a permanent member of our School Advisory Council ("SAC"). As mentioned in the Teacher row above, it is composed of a diverse set of educational partners who review, provide feedback/input, and approve our LCAPs. Our Principal leads these meetings where LCAP data and outcomes are discussed, and records this feedback for use during the development of the LCAP. Coffee with Principal is also a space led by our Principal where they facilitate discussion between parents and school community members on our LCAP data and progress.
Administrators	Administrators provide feedback and input during our LCAP development process as they are part of the SAC. They are in all meetings throughout the school year where the review, provide feedback/input, and approve the LCAP. EL administrators are part of the DELAC where they work with parents of English Learners on

Educational Partner(s)	Process for Engagement
	<p>feedback on efforts to support ELs, and they also review and provide feedback on the LCAP in the Spring. Lead professional development with Teachers where data is shared on our current progress and efforts in relation to LCAP data outcomes.</p>
Other School Personnel	<p>Staff participate in structured professional development sessions to review student performance trends and provide recommendations for curriculum, instruction, and interventions.</p> <p>These sessions ensure that teacher insights shape the LCAP's academic priorities and professional growth opportunities. We also implement several surveys throughout the year to garner feedback.</p>
Parents	<p>DELAC meetings engage parents of English Learners, focusing on the needs of multilingual students.</p> <p>Parents receive updates on English Learner progress, instructional supports, and reclassification efforts.</p> <p>Feedback from DELAC informs LCAP actions related to language development, ELD programming, and bilingual resources. The SAC serves as a key platform for gathering feedback from parents, teachers, classified staff, and students. Discussions focus on student achievement data, school priorities, and funding allocations. Stakeholders provide input on programs and services that support student learning and well-being. Coffee with the Principal are regular meetings that provide an open forum for parents and community stakeholders to discuss school programs, concerns, and upcoming initiatives. The school leadership shares updates on the LCAP goals, budget, and student progress.</p> <p>Parent and community input helps refine engagement strategies and family support programs.</p> <p>Lastly, to ensure that we're soliciting all important educational partners for our LCAP feedback, we post on ParentSquare. ParentSquare is like a social media platform that empowers the school to reach all of our parents. We distributed our LCAP survey to all of our parents/guardians via ParentSquare and we were able to gather feedback from parents of Students with Disabilities, English Learners, and all parents/guardians of other numerically and non-</p>

Educational Partner(s)	Process for Engagement
	numerically significant student groups. This is done to ensure we receive holistic stream of feedback and engagement of all families.
Students	<p>Students are important members of our SAC Meetings as they provide key feedback and input on how to improve their peers' and own outcomes at the school. Additionally, I contribute to discussions by offering insights and weighing in on suggestions for school improvement, reinforcing our collective commitment to growth and excellence. They are part of the entire process throughout the school year of reviewing LCAP data, providing input and feedback, and voting to approve the LCAP in May.</p> <p>Green Dot Home Office works with school leaders to update the LCAP, analyzing data and monitoring progress toward goals. The LCAP is then presented to the School Advisory Council and the DELAC in May. These stakeholder groups provide feedback before the final SAC approval. The LCAP is then presented to the Green Dot Governing Board in June for final approval. Green Dot Public Schools CA, school leadership, and the SAC will all continue to monitor the school's progress toward these goals.</p>
SELPA	Our SELPA is provided our LCAPs early in our process for review and feedback to ensure that we are providing the proper support, documentation, and explanation of the supports we provide our Students with Disabilities.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Our education partners influence the development of our LCAP through a multi-layered engagement process that ensures that the LCAP is reflective of the entire school community's needs, fostering a collaborative approach to school improvement.

Parents, teachers, classified staff, and students frequently provide feedback on academic needs and school climate. Discussions on student performance data led to the expansion of targeted interventions, such as: SBAC Academy for students close to proficiency in ELA and Math, Specialized Math advisories to support struggling students, and additional professional development for teachers to strengthen instructional effectiveness.

Parents emphasized the need for more support for English Learners and Students with Disabilities, influencing the adoption of integrated ELD PD and co-taught classes.

Teacher feedback during weekly instructional coaching and data analysis sessions led to expanded small-group interventions in both ELA and Math, increased alignment between assessments (NWEA MAP, iReady) and classroom instruction and adoption of SBAC-aligned test preparation strategies to improve student readiness.

Teachers identified the need for stability in staffing, leading to an emphasis on teacher recruitment and retention strategies in the LCAP.

Parents and community members voiced concerns about chronic absenteeism and student engagement. Their input led to hiring a Chronic Absenteeism Case Manager to conduct family outreach and provide attendance incentives, expanding transportation and basic needs support (bus passes, weather-appropriate gear) for students facing attendance barriers, and strengthening social-emotional learning (SEL) programs to address mental health challenges affecting attendance.

Feedback also shaped school climate initiatives such as the creation of Community Support Centers (CSCs) to provide wraparound services and increased restorative justice practices to maintain a low suspension rate.

We also have Learning Recovery Emergency Block Grant ("LREBG") funds remaining for our school. During our budget development process, we host SAC and other budget specific meetings highlighting the current status of revenue, grant allocations, and the proposed budget for the next school year. During these meetings we highlighted how we are using funds to support English Language Arts and Mathematics outcomes through programs, services, and staff members to target students needs.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	<p>Provide Basic Services by:</p> <ul style="list-style-type: none">• Maintaining the appropriate assignment of teachers, appropriately credentialed in the subject areas and for the pupils they are teaching• Providing students will have access to and be enrolled in a broad course of study (i.e., science, social science, VAPA, PE for high school students), and have access to standards-aligned instructional materials and the educational program as outlined in the school’s charter petition• Maintaining school facilities are maintained in good repair	Broad Goal

State Priorities addressed by this goal.
Priority 1: Basic (Conditions of Learning) Priority 7: Course Access (Conditions of Learning) Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.
To provide and maintain Basic Services for students and schools. To ensure students have access to a broad course of study and pupil outcomes are measured in applicable subject areas.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All actions were implemented as planned and there were no substantive differences. The principal actively monitors teacher, counselor, and administrator credentials during the master scheduling process and throughout the year to ensure compliance. Collaboration with the Green Dot Human Resources Team has facilitated timely mid-year hires and course adjustments, ensuring all courses are staffed with qualified professionals.

The HRIS system has streamlined the employee lifecycle process, allowing for efficient onboarding, credential tracking, and workforce management.

A district-wide adoption of grade-level, standards-aligned curriculum for grades 6-8 in English and Math has provided students with a consistent and rigorous academic experience. All students have access to published, standards-aligned curricular materials, including textbooks, online resources, and sample instructional plans.

Ongoing professional development for teachers and administrators has strengthened effective instructional practices, ensuring that educators maximize student learning using aligned materials. An online tracking system for textbooks and classroom materials ensures full access to learning resources for all students. Technology and electronic materials are integrated into instruction, supporting student engagement and personalized learning.

Administrators use student data to guide course placement, ensuring students are enrolled in classes that align with their academic needs and future goals. ELA and Math intervention courses have been embedded in the master schedule to support students who need additional help. The Advisory program provides students with one-on-one academic support, social-emotional learning, and guidance on core subjects, fostering a holistic approach to student development. The school has been appropriately staffed to support elective courses, ensuring students have access to diverse learning opportunities.

Regular facility inspections and audits are conducted by Green Dot Operations and Facilities staff, ensuring a safe and well-maintained campus. Maintenance and repairs are managed efficiently, utilizing both in-house staff and external vendors. Animo Legacy rents its facility through LAUSD, requiring district approval for significant facility changes. While this process can sometimes delay upgrades, collaboration with LAUSD has helped secure necessary improvements. Animo Legacy ensures that all classrooms and buildings have sufficient furniture, utilities, and infrastructure to support educational technology and a safe learning environment.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Material differences between planned expenditures versus estimated actuals can be attributed to multiple external factors, including a challenging enrollment environment, only modest increases in average daily attendance (ADA), and uncertainty in federal education policy and awarded funds. Consequently, the catastrophic fires in Los Angeles during the school year resulted in multiple days of closure, heavy pollution, and student and staff emotional distress; which resulted in a disruption of planned service delivery and implementation timelines.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

As seen by our metric outcomes, all of our actions were effective in support our desired result. These actions will remain unchanged for this LCAP year, and will reassess next school year when working with educational partners.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Following continuous review of our LCAP actions as it relates to educational partner engagement and the LCAP instructions, we have made the following changes to the following LCAP actions:

- 1.2 Academic - Curriculum Design: Updated the action to a non-contributing action following closer review of the description and LCAP instructions
- 1.3 Academic - Master Scheduling & Staffing: Added language regarding services and support block time for English Learners and Students with Disabilities

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Teacher Credentialing:	<p>Human Resources:</p> <ul style="list-style-type: none"> • The principal reviews teacher, counselor and administrator credentials during the master scheduling process and throughout the year to ensure all credentials are properly maintained. The principal collaborates with the Green Dot Human Resources Team to for mid- year hires and/or course changes for teachers throughout the year. • Green Dot implemented a system to maintain the employee lifecycle process (HRIS) <p>\$882 of LCFF funds are Learning Recovery funds to support ELA and Math outcomes. Goals and Actions

Goal

Goal #	Description	Type of Goal
2	<p>Proficiency for All:</p> <ul style="list-style-type: none"> • Increase the percent of students scoring Met Standard and above on SBAC ELA, SBAC Math and CAST assessments annually or outperform the district average. • Increase percent of EL students who reclassify as Fully English Proficient. • Increase percent of EL students scoring “Level 3” and “Level 4” on the English Language Proficiency. Assessments for California (“ELPAC”) annual assessment. • Increase or maintain growth on CORE ELA and Math <p>"<30" Explanation: Federal and state regulations safeguard student privacy by stipulating that data cannot be reported for any student group comprising fewer than 30 students. Educational Partners are encouraged to communicate with their student’s teacher or school administrators for insights into student group performance.</p>	Broad Goal

State Priorities addressed by this goal.

Priority 2: State Standards (Conditions of Learning)
 Priority 4: Pupil Achievement (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

To increase the percent of students who score Met Standard and above on the SBAC and CAST assessments.
 To increase the percent of English Learners who achieve full English language proficiency.
 To increase the percent of English Learners who make progress towards English proficiency.
 To increase student growth percentile on the CORE assessment.

Measuring and Reporting Results

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All actions were implemented as planned and there were no substantive differences. Animo Legacy has implemented a multi-tiered approach to improve student literacy outcomes. These interventions focus on teacher development, targeted student support, and enhanced instructional strategies.

Our professional development has included weekly instructional coaching for teachers, led by ELA curriculum specialists and instructional leaders. We consistently train on the effective use of standards-aligned curricula, including myPerspectives for core instruction. We have increased our focus of PD on increasing academic discourse and supporting English Learners and Students with Disabilities (SWD).

We've implemented NWEA MAP Assessments. These assessments are used to track individual student growth and adjust instruction accordingly. Legacy's approach to assessment has also evolved in a manner that supports targeted interventions. By shifting from the Reading Inventory to the more comprehensive NWEA MAP assessment, teachers now gain deeper insights into individual student needs. This data-driven approach allows for the customization of instructional supports, ensuring that each student receives the targeted help required to close learning gaps.

Our Wilson Reading Program is a specialized literacy intervention designed to support Students with Disabilities (SWD) in foundational reading skills.

Animo Legacy has further implemented targeted interventions to address the needs of at-risk students. One such initiative is the SBAC Academy, designed specifically for "bubble students" who are close to meeting the proficiency standards. This program, conducted during Spring Break, provides these students with intensive support to help them reach their full potential. In tandem with this, students are receiving focused instruction on test-taking strategies, along with practical experience in navigating the CAASPP platform through dedicated advisory lessons. This dual approach enhances both confidence and competency in standardized testing scenarios.

Finally, Animo Legacy has adopted a schoolwide emphasis on increasing academic discourse, particularly highlighting discourse strategies to utilize with English Language Learners (ELLs) and Students with Disabilities (SWD). By fostering an environment where robust, academic discussions are encouraged, the school aims to deepen understanding and engagement across all student groups. This approach not only supports content mastery but also enhances communication skills that are critical for academic success.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Material differences between planned expenditures versus estimated actuals can be attributed to multiple external factors, including a challenging enrollment environment, only modest increases in average daily attendance (ADA), and uncertainty in federal education policy and awarded funds. Consequently, the catastrophic fires in Los Angeles during the school year resulted in multiple days of closure, heavy pollution, and student and staff emotional distress; which resulted in a disruption of planned service delivery and implementation timelines.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

All actions were effective in supporting the results we were seeking. The opportunity is to continue the focus on further refining and perfecting action supports for outcome growth. Unfortunately, we have experienced teacher turnover or gaps in instruction that impacted consistent, rigorous instruction. We have now filled those gaps and are hopeful about the end of year progress.

Another critical issue is the baseline reading proficiency of the students entering Animo Legacy. Many students begin their academic journey well below grade-level expectations, which compounds the challenge of achieving rapid improvement. Based on the Reading Inventory used to assess students during the 23-24 school year, the average student Lexile score at the beginning of the year was 690 which falls within the range of a 3rd grade reading level bases on the RI College and Career Lexile Proficiency Bands. When students start at a disadvantage, the distance to proficiency becomes significantly larger, making it more difficult to achieve notable gains within a short timeframe.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

To better align with the intent behind our reported outcomes, we have updated the way we describe our expected outcomes. Specifically, we have replaced the "%" symbol with "percentage points" in all of our metric descriptions. This change provides a clearer representation of our schoolwide and student group progress and impact. By using "percentage points," we emphasize absolute changes rather than proportional ones, better reflecting the spirit of the metric outcomes and progress we seek to achieve.

Following continuous review of our LCAP actions as it relates to educational partner engagement and the LCAP instructions, we have made the following changes to the following LCAP actions:

- 2.1 Curriculum, Resources and Materials to Support Student Subgroups: Added language regarding professional development focused on English Learners and Socioeconomically Disadvantaged students
- 2.2 Support for EL Students: Added language regarding curriculum and technology assessments used to support English Learners
- 2.5 Professional Development: Added language regarding professional development focused on supporting English Learners and Students with Disabilities

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

		<p>The school analyzes data on a regular basis to support the Emerging Bilinguals in growth in language development. Data analysis supports the school matrix providing students with designated supports as needed while all courses focus on integrated instruction. Teachers are provided with professional development throughout the year including language objectives for daily lessons.</p> <p>The schools leverages the Ellevation platform to progress monitor Emerging Bilingual students and provide teachers with strategies for instruction. Practice tests are available for students to prepare for the English Language Language Proficiency Assessment (ELPAC). An Emerging Bilingual Lead (EB Lead) is a teacher leader on campus who collaborates with the Emerging Bilingual Coordinator on how to best support students based on data.</p> <p>In addition, to targeted language support a may also be enrolled in a Literacy Intervention course to support their reading needs where support in language acquisition may also be provided.</p> <p>The English Language Arts courses support the Emerging Bilingual students on campus as the ELA department collaborates frequently to support the success of this student group. The school has adopted My Perspectives, a standards aligned curriculum, for Grades 6 through 12 English Language Arts courses. Professional Development is provided annually before the start of the school year to review curriculum, assessments, and recommended pacing plans in all grade levels. In addition to this professional development, the school is assigned a Literacy Curriculum Specialist, who provides targeted coaching and support to English Language Arts teachers on campus. The Curriculum Specialist meets monthly with the designated administrator over ELA to ensure alignment in supports for teachers and may also attend weekly school site professional development or ELA department meetings as needed. Common assessments from the curriculum are used to progress monitor student growth on standards and a common data analysis protocol is used to identify targeted standards for re-teaching.</p> <p>The Math Curriculum adopted, Illustrative Math has language support embedded in the curriculum to support teachers with language instruction</p>		

Action #	Title	Description	Total Funds	Contributing
		<p>in Mathematics. The Curriculum Specialist in Math is trained on how to implement these strategies and supports teachers with targeted coaching for the Emerging Bilingual students.</p> <p>A universal screener assessment is given three times per year to provide additional data on student growth. The i-Ready assessment is a nationally normed diagnostic that is used in the Fall, Winter and Spring for all grade levels. Student data is analyzed after each assessment to assess the progress of this student subgroup and identify opportunities for additional support. "</p>

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All actions were implemented as plan and there were no substantive differences between planning and implementation. Our school has successfully fostered a strong, inclusive culture that celebrates all students, creating an environment where every learner feels valued, engaged, and supported. By emphasizing cultural celebrations, extracurricular opportunities, and after-school activities, we have built a community that honors diversity, encourages student participation, and promotes holistic development. This has led to 0% dropout and reduction in suspensions.

We take pride in celebrating the diverse backgrounds of our students through schoolwide events that promote cultural awareness and unity: Día de Los Muertos – Students and families come together to honor traditions through art, music, and storytelling. Black History Month Block Party – A vibrant event featuring performances, historical showcases, and community speakers to celebrate Black excellence. Women’s History Month – Recognizing the achievements of women through student-led presentations, activities, and discussions. These celebrations foster a deep sense of belonging and cultural appreciation, ensuring that all students see their identities reflected and valued in the school community. Beyond academics, our school provides a full range of sports and clubs that allow students to develop teamwork, leadership, and personal interests: Athletic Programs: Students participate in volleyball, basketball, flag football, soccer, and cheer, building discipline, resilience, and school pride. Student Clubs: A variety of clubs cater to diverse interests, including a roller-skating club and gaming club, providing fun and active engagement outside of the classroom. Through our ARC after-school program, students explore creative and leadership-building activities, such as: Nail Art & Photography – Encouraging artistic expression and creativity. Music & Sports – Giving students opportunities to develop talents and stay active. Leadership Development – Providing students with skills to inspire and uplift their peers.

By offering a well-rounded school experience, we have successfully cultivated a supportive and engaging school culture. Our students are not only thriving academically but also growing socially and emotionally through these meaningful experiences. This commitment to student celebration, extracurricular engagement, and cultural appreciation ensures that every student feels empowered, included, and prepared for future success.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between planned expenditures and estimated actual expenditures.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

All actions were effective in supporting as seen by our metric outcomes.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

To better align with the intent behind our reported outcomes, we have updated the way we describe our expected outcomes. Specifically, we have replaced the "%" symbol with "percentage points" in all of our metric descriptions. This change provides a clearer representation of our schoolwide and student group progress and impact. By using "percentage points," we emphasize absolute changes rather than proportional ones, better reflecting the spirit of the metric outcomes and progress we seek to achieve.

Following continuous review of our LCAP actions as it relates to educational partner engagement and the LCAP instructions, we have made the following changes to the following LCAP actions:

- 3.1 Counseling: Updated the action to a non-contributing action following closer review of the description and LCAP instructions

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All actions were implemented as planned and there were no substantive difference between planned actions and implementation. Animo Legacy has made significant progress in improving student attendance and reducing suspensions, demonstrating our commitment to student engagement, well-being, and a positive school climate. Through targeted interventions, proactive support systems, and a strong school culture, we have seen a decline in chronic absenteeism, an increase in average daily attendance (ADA), and a consistently low suspension rate.

Chronic absenteeism has decreased from 36.6% in 2023 to 29% in 2024, reflecting a 7.6% improvement. This success is attributed to dedicated outreach efforts, including:

- Hiring a Chronic Absenteeism Case Manager to track and support at-risk students.
- Implementing personalized attendance plans for students struggling with consistent attendance.
- Providing transportation assistance (bus passes, essential weather gear) to remove barriers to attendance.
- Using positive reinforcement incentives, such as rewards, recognition events, and schoolwide attendance challenges.

Our ADA has steadily improved, showing that more students are regularly attending school.

Increased family engagement through SAC meetings, Coffee with the Principal, and advisory check-ins has reinforced the importance of daily attendance.

Advisory and after-school programs (ARC, sports, clubs, and leadership opportunities) have played a crucial role in keeping students motivated and engaged.

Our school has maintained a suspension rate below 1%, well within our goal of staying under 5% annually. This success is due to our restorative justice approach, which includes:

- Community Support Centers (CSCs) that provide students with social-emotional support, mediation, and counseling instead of punitive measures.
- Implementation of Positive Behavioral Interventions and Supports (PBIS), encouraging positive student behavior and conflict resolution strategies.
- Regular SEL (Social-Emotional Learning) lessons in advisory to equip students with skills in communication, self-regulation, and decision-making.

Our strategic and student-centered initiatives have helped create a safe, inclusive, and engaged learning environment, leading to fewer absences, higher student participation, and a reduction in disciplinary actions. We remain committed to further decreasing absenteeism, increasing daily attendance, and maintaining a restorative approach to discipline to support the long-term success of all students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between planned expenditures and estimated actual expenditures.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

All actions were effective as seen by our metric outcomes and we are making progress with our actions towards our LCAP goal.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

To better align with the intent behind our reported outcomes, we have updated the way we describe our expected outcomes. Specifically, we have replaced the "%" symbol with "percentage points" in all of our metric descriptions. This change provides a clearer representation of our schoolwide and student group progress and impact. By using "percentage points," we emphasize absolute changes rather than proportional ones, better reflecting the spirit of the metric outcomes and progress we seek to achieve.

Following continuous review of our LCAP actions as it relates to educational partner engagement and the LCAP instructions, we have made the following changes to the following LCAP actions:

- 4.2 Services for Systems of Support: Updated the action to a non-contributing action following closer review of the description and LCAP instructions

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All actions were implemented as planned and there were no substantive differences between planned actions and implementation. Our school has successfully met the goal of parent engagement and participation by fostering strong, consistent communication and providing multiple opportunities for families to be actively involved in their child's education. Through a combination of meetings, surveys, digital communication tools, and community partnerships, we have strengthened collaboration between families, teachers, and administrators to support student success.

We consistently host meetings and events that welcome all families such as the following:

School Advisory Council (SAC) Meetings: Regular meetings allow parents, students, and families to provide feedback, discuss school initiatives, and influence decision-making.

DELAC Meetings: Parents of English Learners participate in District English Learner Advisory Committee (DELAC) meetings to advocate for language support programs and reclassification strategies.

Cultural Events Open to Families: Celebrations such as Día de Los Muertos, Black History Month Block Party, and Women's History Month bring families together, fostering a sense of belonging and school pride.

Parent-Teacher Conferences (Twice a Year): Provides parents with personalized academic updates, student progress reports, and strategies to support learning at home. These conferences strengthen the parent-teacher relationship and ensure students receive the necessary support both in school and at home.

We have strengthened our communication channels through the following:

Family Surveys: Distributed regularly to gather feedback on school climate, academic programs, and family needs, ensuring that parents have a voice in shaping school policies.

Monthly Newsletters: Keep families informed about school updates, upcoming events, and student achievements.

ParentSquare: A two-way communication platform that allows families to directly connect with teachers and administrators, ask questions, and receive important updates in real time.

We have several community partners that provide a wealth of services to our families such as EmpowHER, Smil-ing Boys, ARC and Children's Institute. Children's Institute provides wraparound services to support the entire family, including mental health resources,

counseling, and family support programs. They help to strengthen the school-home connection, ensuring families receive the assistance they need to overcome barriers to student success.

Through these diverse engagement strategies, we have created an inclusive, well-informed, and actively involved parent community. By continuing to prioritize open communication, meaningful events, and family support services, we will strengthen our partnerships with families and enhance student success.

There were no material differences between planned expenditures and estimated actual expenditures.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

All actions were effective in supporting our metric outcomes. Focus is on ensuring action effectiveness in future school years. Effective as 30% of our families have participated in 2 or more events, hosting a minimum of 4 School Advisory Council and DELAC meetings and 80% of our families recommending Animo Legacy to a friend.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

To better align with the intent behind our reported outcomes, we have updated the way we describe our expected outcomes. Specifically, we have replaced the "%" symbol with "percentage points" in all of our metric descriptions. This change provides a clearer representation of our schoolwide and student group progress and impact. By using "percentage points," we emphasize absolute changes rather than proportional ones, better reflecting the spirit of the metric outcomes and progress we seek to achieve.

Following continuous review of our LCAP actions as it relates to educational partner engagement and the LCAP instructions, we have made the following changes to the following LCAP actions:

- 5.1 Parent Engagement and Participation: Added language regarding the parents/guardians of unduplicated student groups that are engaged during the school year.
- 5.3 Community Partnerships: Updated the action to a non-contributing action following closer review of the description and LCAP instructions. Updated language related to an educational partner that no longer is partnering with the LEA.

We have added an additional metric "5.5 Student Survey" to better align with and track progress towards our LCAP goal of better supporting school safety and connectedness.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
5.1	Parent Engagement and Participation:	<ul style="list-style-type: none"> The School Advisory Council (SAC) is comprised of the principal, teacher, staff members, parents and community members Green Dot District English Learner Advisory Council bylaws ensure English Learner's parents/guardians are elected to the serve on the District English Learner Advisory Council (DELAC). Parent participation on the SAC and DELAC allows for all parents and guardians as well as parents/guardians of Socioeconomically Disadvantaged students, English Learners, and Foster Youth students to have input into school policies and budget, and regularly reviews school data. School has a Parent Coordinator whose responsibilities include planning activities, managing communications with parents/guardians, coordinating monthly parent workshops on relevant topics, supports in the hosting of meetings with our DELAC and SAC. ParentSquare is frequently used to communicate with parents, staff, and teachers on upcoming school events, celebrations, activities, and SAC/DELAC meetings and topics. <p>\$65,309 of LCFF funds are Learning Recovery funds to support ELA and Math outcomes. Metrics are tracked in Goal 2: 2a, 2b, 2f, and 2g</p>	\$559,271.47	Yes
5.2	Communications:	<ul style="list-style-type: none"> School communicates with parents regularly via monthly letters, calendars, and the use of Parent Square School hosts annual events including orientation, back-to- school night and other activities to engage parents in the school community School administers an annual family and staff survey to garner feedback from parents on all aspects of the school including teacher performance, school safety and stakeholder satisfaction 	\$315,139.01	No

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.3	<p>Action: Academic - Master Scheduling & Staffing:</p> <p>Need: To ensure the master schedule is data driven using universal assessment data to meet the needs of students.</p> <p>Scope:</p>	<p>We will assess student data on state assessments and universal screeners (RI and i- Ready) to develop a master schedule that is data driven and offers core and support classes..</p> <p>The actions will provide students with opportunities for learning acceleration in support classes alongside access to a course of study for high school readiness.</p>	<p>1a - Credentialed Teachers</p> <p>1b - Broad Course of Study</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		
2.1	<p>Action: Curriculum, Resources and Materials to Support Student Subgroups:</p> <p>Need: To ensure that student subgroups have access to curriculum and support resources to increase mastery of grade level standards.</p> <p>Scope: LEA-wide</p>	<p>We will provide training and development for the ELlevation platform to support students' language development.</p> <p>We will provide professional development for co-teaching pairs including Universal Design for Learning support Special Education students</p> <p>The actions will provide student subgroups with the materials to support and increase academic outcomes.</p>	<p>2a - SBAC ELA 2b - SBAC Math 2c - CAST (Science) 2f - CORE SGP ELA 2g - CORE SGP Math</p>
2.2	<p>Action: Support for EL Students:</p> <p>Need: To ensure that EL students have increased academic supports to foster language development and overall academic outcomes.</p> <p>Scope: LEA-wide</p>	<p>We will provide professional development to teachers to ensure integrated classrooms include a language objective and opportunities for discourse to foster language development for EL students.</p> <p>The actions will provide students with language opportunities in all courses to foster language development and increased language proficiency.</p>	<p>2d - EL Reclassification 2e - ELPI Levels</p>
2.5	<p>Action: Professional Development</p> <p>Need: To ensure that teachers are provided the support needed to effectively meet the needs of students with rigorous classroom instruction.</p>	<p>We will provide 10 day of professional development for teachers during the school year including content focused days with student work analysis to progress monitor success,</p> <p>The actions will provide teachers with the opportunity to learn from content leads, collaborate with colleagues across Green Dot's network of schools and progress monitor student outcomes</p>	<p>2a - SBAC ELA 2b - SBAC Math 2c - CAST (Science) 2f - CORE SGP ELA 2g - CORE SGP Math</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide	for real- time intervention for students with re-teaching opportunities for key standards.	
2.8	Action: Support for Long Term English Learners Need: To ensure that Long Term EL students have increased academic support to foster language development and overall academic outcomes. Scope: LEA-wide	We will provide professional development and coaching on strategies in the Ellevation platform to ensure that language objectives are coupled with strategies for Long Term EL students. The actions will support language development for students, mastery of content and progress toward reclassification to being fully English proficient.	2d - EL Reclassification 2e - ELPI Levels
2.9	Action: Improving Mathematics Outcomes Need: To ensure students have access to rigorous Math instruction and targeted intervention to accelerate math outcomes. Scope: LEA-wide	We will implement the Illustrative Math curriculum and provide teachers with professional development to support implementation with appropriate scaffolds to close learning gaps for students. We will implement the i- Ready math curriculum to provide students a Math Foundations course to accelerate learning for students two or more grade levels behind in math. The actions will provide students with differentiated supports that are data -driven and progress monitored through universal assessments of the i-ready placement diagnostic.	2b - SBAC Math 2g - CORE SGP Math
2.10	Action: Improving English Language Arts Outcomes Need: To ensure students have access to rigorous English- Language ARts instruction and	We will implement the My Perspectives curriculum and provide teachers with professional development to support implementation with appropriate scaffolds to close learning gaps for students.	2a - SBAC ELA 2f - CORE SGP ELA

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Need: To ensure English Learners students have access to rigorous Math instruction and targeted intervention to accelerate math outcomes.</p> <p>Scope: LEA-wide</p>	<p>appropriate scaffolds to close learning gaps for students.</p> <p>We will implement the i- Ready math curriculum to provide students a Math Foundations course to accelerate learning for students two or more grade levels behind in math.</p> <p>We will leverage Ellevation strategies and language objectives to provide additional support to EL students within the Math course.</p> <p>We will partner with the Math Curriculum Specialist and EL Coordinator from Green Dot to provide the Math Department with additional sub group coaching as needed.</p> <p>The actions will provide students with differentiated supports that are data -driven and progress monitored through universal assessments of the i-ready placement diagnostic.</p>	
4.4	<p>Action: Reducing Chronic Absenteeism for Foster Youth Students</p> <p>Need: To ensure that there are targeted supports for foster youth students at risk of being chronically absent.</p> <p>Scope: LEA-wide</p>	<p>We will progress monitor foster youth student attendance via a tableau report that identifies students at- risk for chronic absenteeism.</p> <p>We will provide targeted support from office staff, counselors and administrators which may include academic and transportation resources.</p> <p>We will partner with the Green Dot Mc-Kinney Vento case manager and Attendance case managers for additional resources.</p> <p>The actions will increase communication about student attendance between the school and family to support positive attendance with interventions and incentives.</p>	<p>4a - ADA</p> <p>4b - Chronic Absenteeism</p>
5.1	<p>Action: Parent Engagement and Participation:</p> <p>Need:</p>	<p>We will establish a cadence of communication with parents to ensure timely feedback and opportunities to engage with the school.</p>	<p>5a - SAC Meetings</p> <p>5b - DELAC Meetings</p> <p>5c - Family Surveys</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>To ensure that parents are meaningfully engaged in the student learning experience through frequent communication and opportunities to interact with the school.</p> <p>Scope: LEA-wide</p>	We will establish a calendar of events to engage parents in school activities and celebrations.	

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Not applicable

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Our LEA has strategically invested Additional Concentration Grant funding to expand our team of highly qualified staff who deliver meaningful, student-centered services to our thriving unduplicated student populations. Below, we share how these investments are enhancing educational equity and opportunity for students eligible for Free and Reduced-Price Lunch, English Learners, and students in foster care. This funding has allowed us to increase the number of credentialed educators who provide personalized academic support, empowering students to meet and exceed grade-level expectations. We have also hired instructional staff who are expertly trained in

implementing the i-Ready diagnostic and instructional program. These educators design and facilitate individualized learning pathways that build on each student's strengths and ensure progress toward academic success. Schools demonstrating a strong opportunity for growth through diagnostic tools and tailored instruction received additional staff to maximize the benefits of the i-Ready program. Furthermore, grant funds support the hiring of credentialed elective teachers who engage students in enriching, project-based learning across STEM and the arts, helping students explore their interests and develop real-world skills. As part of our commitment to student well-being and engagement, we are prioritizing efforts to support consistent attendance. By investing in additional staff dedicated to attendance initiatives, and partnering with programs such as Everyday Labs and Attendance Works, we are creating stronger connections between school and home that support students' daily engagement and sense of belonging. To further elevate the success of our English Learners, we have dedicated grant funding to staff who implement the Ellevation platform, enabling educators to access targeted instructional strategies that affirm linguistic assets and accelerate language development. We recognize and honor the resilience and brilliance of our students in foster care and those experiencing homelessness. Our LEA uses grant funds to support additional credentialed staff who implement specialized advisory programs that address both the social-emotional and academic needs of these students. Summer Bridge programs, staffed with caring educators, offer transitional support that helps students build confidence and community as they move between grade levels or school sites. In addition, we have invested in hiring case managers and partnering with community-based mental health organizations to provide holistic, trauma-informed support, ensuring students have access to the resources they need to thrive both in and out of the classroom.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	Not Applicable	36:853
Staff-to-student ratio of certificated staff providing direct services to students	Not Applicable	74:853

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none">• Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
